Got it Learning is fun again with 123 numbers - Count & Tracing, the best numbers educational app for kids! Help your child or preschoolers learn the numbers, tracking, counting, and more with this easy app designed for kids and parents to play together. 123 Numbers features bright, colorful games that teach children as they play, making it easy to learn basic numbers and the knowledge from a handy all-in-one app. Each game in 123 Numbers features fun graphics and sounds as well as collectibles to encourage children to learn every single day. Parents can also customize each game to suit their child's needs. But best of all, 123 Numbers are free to download and enjoy. There are non-tripartite ads or app purchases, just a safe and fun environment for children to learn in. 123 Numbers are filled with fun learning games for kids: Number tracking - Learn the characters with this colorful beginner's mini-game. Children follow the Red Arrow guides to track shapes on the screen. Easy! Learn to Count - Several types of objects will appear on the screen. Children count the objects and press each one to learn numbers individually. Number Matching - A number appears in a balloon at the top of the screen. The children recognize the number and pull the right solution from the bottom of the screen. Fill in the Blank - An advanced game that displays numbers in a sequence with the blank spot at the end. Children fill in the blank to complete the sequence. 123 Talk is a fun app that is perfect for preschool, toddler and kindergarten kids. Parents will love the customizable game options and focus on learning, but children will be captivated by the bright graphics, fun sound effects, collectible stickers and entertaining games. Note to parents: When we worked on 123 tracks, we wanted to create the best and most prominent educational experience possible. We are parents ourselves and know how paywalls, third-party advertising, and in-app purchases can be frustrating obstacles to the learning process. To combat this, we included all the features of a paid app into a single preschool-friendly package, making it easy for parents and children to sit down and enjoy. It's exactly the kind of educational app we wanted for our own kids, and we think your family will like it, too! Thank you, and happy learning! - Parenting RV App Studios A fun and intuitive numbers game for your baby or toddler! Children will enjoy learning numbers with the words spelled out through a fun educational game. Learning numbers and their pronunciation are easy and entertaining and your child will love it too. Cool Maths for Kids!*** Your Child Will!*** ✓ Learn the Numbers ✓ Learn to Count 123 ✓ Develop Math Skills ✓ Improve Memory ✓ Develop Logical Thinking ✓ Develop think ✓ Remember the order of numbers A child should start learning what numbers are, what order they belong in, and how to write them before he/she begins kindergarten. Start exposing the child to number games from 1 year old so they will be familiar with them when he reaches preschool. Integrate numbers into your child's everyday activities and make it as much fun to learn them as possible. If parents and preschool teachers focus on teaching numbers, the child should be comfortable recognizing and typing numbers zero to nine when he starts kindergarten. So basically it's one of the essential preschool learning games for kids. Fun figures for children ðŸ™Between the ages of 2-3 years typically start developing children with numeracy to 'count' when they play, and show that they are beginning to explore and understand the count. At 4 years of age, many children can answer questions like 'How many?' and 'Give meâ€¦,' questions for numbers up to 10. They understand more or less for a small number, but they do not yet understand the numbering system's ordinal figures, i.e. the number. This is where this number game comes into play. Parents should be encouraged to draw their child's attention to the use of the number in everyday life and engage them in counting games that teach counting and quantity. Starting from childhood your children will quickly learn addition and subtraction and other mathematical actions. Show your kids that math is fun and as simple as counting! 123! Developing basic math skills through counting games makes learning maths fun right from the beginning. The number game is designed on patterns of preschool learning games and uses colorful images that are fun for the child to look at. Discovery training using images shows numbers like blank volume numbers that will capture a child's attention. If a child exposed to what numbers look like, it will be easier for him to understand the concept of numbers later on. Counting 123 cool math games for kids games have colorful pictures in high resolution, fun music and a lot of joy for your baby! This numbers game is a little adventure for your baby. Let him show his parents how he learns numbers. The game is suitable for kindergarten and kindergarten level.
